Dear Corg,

Dephney (photo) comes from the island of Tanna. Like so many young people in Vanuatu she is bright and intelligent but lacks the financial resources to get an education. She did our life changing Discipleship Training Schools and on completion of that school we provided a scholarship for her to do a Diagnostic Lab course with us. She now is part of medical team and providing leadership to other NiVan young people encouraging them to step out pursue their full potential in God.

We have already trained 17 national young people in both the medical and leadership fields this year. In 2020 we expect to triple the number of young people trained for missions in Vanuatu. We just sent twelve young missionaries to the Solomon Islands. (photos)

Mobilizing NiVan young people for missions throughout the South Pacific is the answer. You can check us out at our new Family Care Centre at: [www.familycarecentre.org](http://www.familycarecentre.org)

Thanks for your love and support.

*David and Linda*

*P.S. Thank you for praying for these teams!*

David and Linda
